CHRISTIANE ENGEL

New

437

Our planet is criss-crossed by a network of ancient pathways reflecting the journeys of millions of animal species in search of food, water, safety and mates. But human development is blocking these vital 'ribbons of life'.

Animal habitats are shrinking into isolated and unconnected patches of nature. This fascinating book by Catherine Barr and illustrated by Christiane Engel tracks the journeys of seven amazing animals from our very own hedgehog in the UK to elephants in India. Discover why they are in trouble, follow their journeys and find out how scientists and campaigners across the world are creating 'wildlife corridors' for animals on the move. Guide age 6 upwards. 37 pages. Hardback. **£13.99**
